

## **Program A: Executive Administrative and General Support**

Program Authorization: R.S. 17:1519.1 A. (1)

### **Program Description**

The mission of the Executive Administration and General Support Program is:

1. To provide access to high quality medical care to residents of Louisiana, regardless of income or insurance coverage, and at a level of care appropriate to their medical needs.
2. To maintain facility environments conducive to quality, accredited residency and other health education programs and work cooperatively with Louisiana medical schools and other health education institutions to afford the maximum opportunity for clinical training in the hospitals.
3. To minimize the cost to the State of providing health care to the uninsured by operating its hospitals efficiently, cost effectively, and in accordance with the standards of the hospital industry, and by maintaining a base of patients with third party support, particularly Medicaid.
4. To work cooperatively with other health care programs, providers and groups at the state and community levels in order to maximize the health care resources available to all the citizens of Louisiana.

The goals of the Executive Administration and General Support Program are:

1. Prevention: Health care effectiveness with an emphasis on preventive and primary care.
2. Partnership: Integrated health delivery network with internal and external community partners.
3. Performance: Improved management information systems and fiscal accountability.

As a result of Act 3 of the 1997 Regular Session of the Louisiana Legislature, the state public hospitals and the Service and Resource Office of what was then known as the Louisiana Health Care Authority were transferred to the management of the Louisiana State University Medical Center (LSUMC).

The system is now named the Health Care Services Division of the LSU Health Sciences Center (LSUHSC). The Service and Resource Office provides support to the hospitals in the areas of fiscal services, reimbursements, contracting, purchasing, auditing, information systems, human resources, clinical, quality assurance, accreditation support, legislative liaison, community networking/partnering, managed care, and patient advocacy. Certain administrative functions are also carried out by this office.
